

Antoine Tooley

tooley.antoine@gmail.com / antoinetooley.com / +44(0)7973418110

**Full-stack web developer specialising in React,
Ruby on Rails and Node applications. Based in London.**

Work

Total Care Manager

2014 - present

totalcaremanager.com

Founder and lead developer for a complex care management platform. This has a React and Rails stack.

Neonexus/ Unlock-defi

November 2021 - February 2022

neonexus.io

Using Typescript, React, Next and Remix we built out NFT minting and gallery viewing components, as well as a CMS enabled website.

Mise En Place

May 2021 - February 2022

miseenplace.online

React and Firebase work to build additional inventory and sales report features.

Levis

April 2021 - May 2021

Levis.com

I built a new in-store mobile web-app in NextJS which integrated with Levis APIs to show items and availability.

Provenance

October 2019 - May 2020

Provenance.org

Backend Ruby on Rails work building out new models, controllers and Views as well as unit and end-to-end tests.

Apidura

June 2018 - April 2019

I created data scrapers collecting product data from up to 30 websites daily. This was a Node project with headless chrome and a mongo no-sql database.

Skills

- **React** // Next / Webpack
